ABOUT ME

As a driven and enthusiastic recent graduate, I hold a Bachelor's degree in Electrical and Electronics Engineering and possess a genuine zeal for web development. In my pursuit of professional growth, I am actively searching for a Web Developer role where I can utilize my expertise in Python, HTML, CSS, JavaScript, Flask, and MySQL. My relentless determination to achieve excellence, adeptness at teamwork, and eagerness to expand my knowledge make me a valuable asset to your organization. Let's connect and explore how my skills and dedication can greatly benefit your team.

SKILLS

- Problem Solving
- HTML
- CSS
- Python
- Flask

LANGUAGE

2019 - 2023
DEGREE - BE.EEE
Podhigai College of Engineering and Technology.
CGPA - **8.28**

2019
SCHOOL - HSC
Dominic Savio Hr sec School.

PROJECTS

2023
JOB PORTAL
Utilizing the power of HTML, CSS, JavaScript, Python, Bootstrap, and Django, I have successfully crafted a dynamic job website portal. With its sleek and modern layout, the portal offers a seamless and intuitive browsing experience to both job seekers and employers.

2023
BIOMETRIC MANAGEMENT
With a powerful combination of HTML, CSS, JavaScript, Python, and Flask, I have expertly designed an innovative biometric management system. Featuring a sleek and user-friendly interface, it seamlessly enables administrators and employees to log in and securely stores their information on a MySQL database.

2023
PHOTO BACKGROUND REMOVER
Through carefully integrating HTML, CSS, JavaScript, Python, and Flask, I have successfully developed a photo background removal tool. Its sleek and intuitive design allows for easy photo upload and background removal, with the uploaded data securely stored in a MySQL database.

2023
HTML, CSS, JS
I've completed a variety of basic web projects including tic tac toe, wordle, a random joke generator that uses an API, and a convenient calculator. These projects required proficiency in HTML, CSS, and JavaScript.
