Kannada (beginning)

OBJECTIVE

Eager to kickstart my career journey in a vibrant company, I aim to bring fresh perspectives and enthusiasm to a dynamic team. I'm seeking not just a job but a mentorship-driven opportunity that fosters personal and professional growth in a thriving, high-level professional setting.

PROJECTS

JOB PORTAL ○ – 2023

Created a user-friendly job portal with Django, SQLite, HTML, CSS, Bootstrap, and JS. Implemented features for recruiters to post jobs, applicants to view and apply, and facilitated communication through automated email notifications. Key Achievements are Seamless job application process with email notifications and Cross-company job visibility for applicants and detailed applicant insights for recruiters.

BIOMETRIC MANAGEMENT SYSTEM ○ – 2023

Developed a user-friendly Biometric Management System using HTML, CSS, JavaScript, Python, and Flask. Implemented registration, login, and home pages for employees and administrators, with data securely stored in a MySQL database. Showcases proficiency in full-stack development and database management, highlighting skills in web application creation.

PHOTO BACKGROUND REMOVER ○ – 2023

Crafted a user-friendly Image Background Remover web app with HTML, CSS, Bootstrap, and Flask. Users can effortlessly upload images, preview edits in real-time, and download results hassle-free. Showcasing a knack for creating engaging full-stack solutions that resonate with users.

ACADEMIC PROJECT

- Smart blind stick. - **2022**
- Home automation on mobile Control. - **2023**
